

Faculty Recruiting

Department of Photonics, National Sun Yat-Sen University

國立中山大學光電工程學系，台灣

The department of photonics at National Sun Yat-sen University invites applications for faculty positions at all levels. The positions start on **01 Feb., 2018**. Candidates should have an earned doctorate in the related fields of Electro-Optical Engineering. The institute is interested in candidates with a strong commitment to research and teach at undergraduate and graduate levels. Exceptionally strong applicants in all areas of electro-optical engineering will be considered. Technical areas of particular interest include, but are not limited to, III-V and group IV optical materials and devices and photonics integration.

In 2006 and 2013, National Sun Yat-Sen University has been selected by the Ministry of Education to receive additional funding for the Five Year Top University Development Plan. Electro-Optical Engineering is one of the 3 major fields at NSYSU under the Top University Development Plan. The Department of Photonics enjoys high academic standing, and a strong and growing national reputation. In addition to the Top University Development Plan, we have executed major national projects, including the Promotion of Academic Excellence Program sponsored by the Ministry of Education and the Technology Development Program for Academia by the Ministry of Economic affairs. The department presently has 15 full-time faculty members, offers BA, MS, and PhD degree programs. There are 180 BA students, 108 MS students and 18 PhD students, plus a few post docs and research engineers. The number of full-time faculty is expected to increase to 16 and beyond in the coming years.

Applications will be accepted immediately. The search will continue until one or more qualified candidates are selected. Applicants should send a letter of interest, curriculum vitae, a list of publications, copies of the most important publications, at least 3 reference letters from academic or professional individuals, and a statement of his or her vision for research and teaching, to:

Professor Yi-Jen Chiu, Director
Department of Photonics
National Sun Yat-Sen University
Kaohsiung 804, Taiwan

Application materials may be sent in electronic form (PDF) to chysu@mail.nsysu.edu.tw
